

ATHESIL

RTV SILICONE SEALANT

Designed specifically for high-performance engines.

Our new single-component RTV silicone answers the needs of professionals in the **automotive, marine, motorcycle, heavy duty, & off-road** industries.

Athesil bonds, seals, repairs, secures, and is excellent for formed-in-place gasketing (FIPG).

Testing confirms superior performance of Athesil even under extreme conditions:

THERMALLY STABLE:

- -40°F to 430° F performing even at 572° F peaks.
- Resists aging, weathering, & thermal cycling without hardening, shrinking, or cracking.
- Will not damage exhaust system lambda sensors.
- **Test:** Resistance at 500° F.

SUPERIOR RESISTANCE TO FLUIDS:

- Resists oils, fuels, greases, coolants, & detergents — ensuring ideal shape retention & adhesion to surfaces.
- Other silicones tend to absorb gasoline, oil & other liquids causing deformation.
- **Test:** Resistance & non-deformation when soaked in gasoline.

EASY TO APPLY & EASY TO CLEAN UP:

- Excellent filling & self-leveling properties allow for easy application on both horizontal & vertical surfaces.
- Easily-peelable for fast removal during service.
- **Tests:** shrinkage, self-leveling, & peelability.
